
Transportation, Processing and Operating Services Agreement

Capacity Rights	<p>Profile nominated for Production, Export Gas and Commingled Oil.</p> <p>Firm Capacity Reservation (FCR)= maximum quantity of Production to be tendered in the relevant Contract Year. Updated annually but must remain within pre agreed limits.</p> <p>Host will use Reasonable Endeavours to accept volumes greater than FCR on a day and has sole discretion to accept an FCR out with pre agreed limits upon request from Satellite.</p> <p>Satellite forecasts maximum quantity of Export Gas to be redelivered in the relevant Contract Year ("Forecast Gas Quantity") plus estimate for remainder of field life ("Estimated Gas Quantity").</p> <p>Satellite forecasts maximum volume of redelivered export crude in the relevant Contract Year ("Forecast Oil Capacity") and estimate for remainder of field life ("Estimated Oil Capacity").</p>
------------------------	--

Priority/Capacity Restrictions	During a reduction in total capacity or capability of the Host facilities, equal priority is given to onspec Satellite production with production from Host and all other user fields in proportion to the average of prior 60-day production.
---------------------------------------	--

Quality	Host has the right to reduce, suspend or curtail offspec Satellite production.
----------------	--

Send or Pay	To be agreed.
--------------------	---------------

Tariff	Detailed Tariff information available on request.
---------------	---

Liabilities and Indemnities	Mutual hold harmless for property, pollution, personal injury except for Wilful Misconduct.
------------------------------------	---

No liability for Consequential Loss except for Wilful Misconduct.

All subject to management approval and subject to contract
